

ADAPTIVE RELEASE

Using the Avoiding Plagiarism Quiz to manage content access

You can take advantage of the Avoiding Plagiarism tool by using a student's Avoiding Plagiarism quiz result to control that student's access to specific content in your UTSONline subject site. This is achieved through the UTSONline **Adaptive Release** tool. The Adaptive Release tool allows Instructors to set up rules a student needs to meet in order for that student to access specific content in a UTSONline subject site. One of the rules that can be created through the Adaptive Release tool is based on a student's grade in the Full Grade Centre of a UTSONline subject site.

Below is an example of creating a rule in the Adaptive Release tool to only allow students access to a Turnitin assignment who have achieved a score of 80% or more in the Avoiding Plagiarism quiz.

Step 1 of 9: Create a link to the **Avoiding Plagiarism** tool with **grading** enabled in your UTSONline subject site. If you do not know how to create this link, refer to the [How do I create an Avoiding Plagiarism Quiz link in UTSONline](#) section on the Avoiding Plagiarism help page. In the below example, the Avoiding Plagiarism tool has a total grade score of 10.

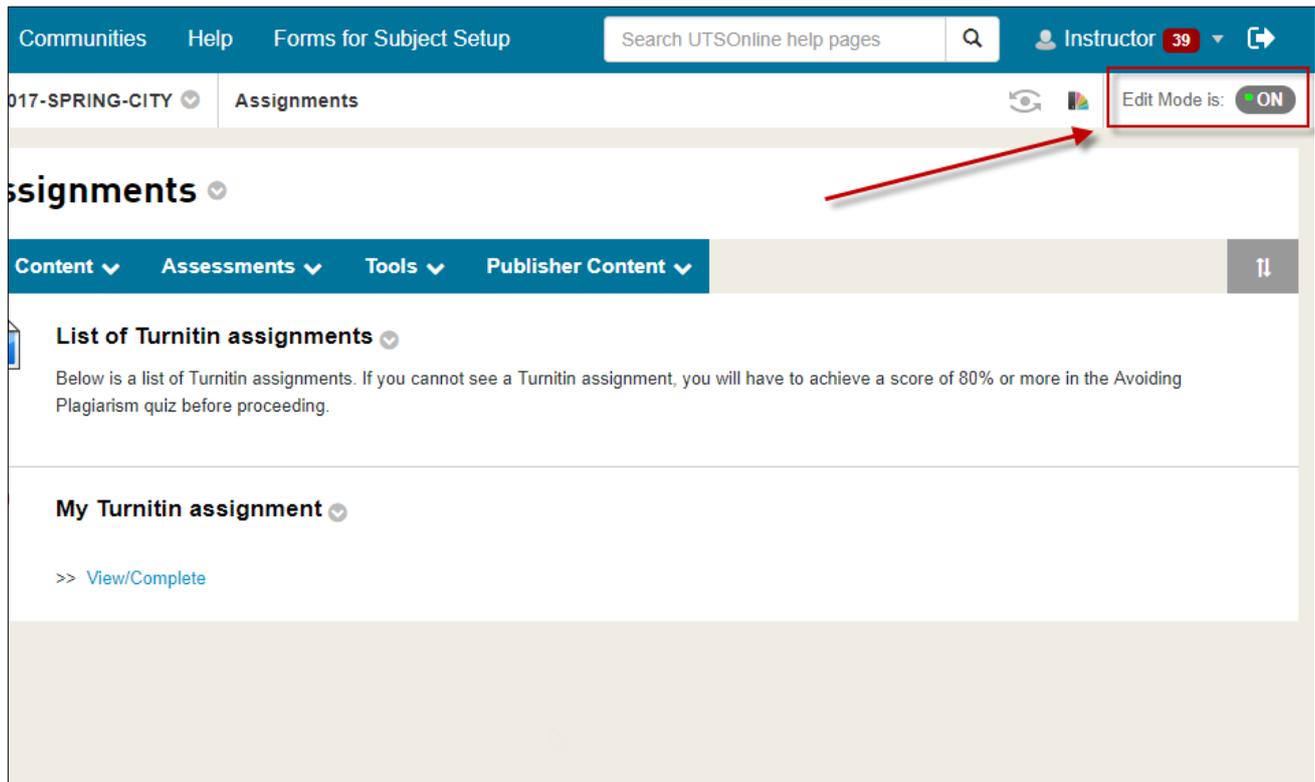

The screenshot shows the UTSONline interface for a subject site. The main navigation bar includes 'UTSONline', 'Communities', 'Help', and 'Forms for Subject Setup'. The current page is titled 'Quizzes' for 'Subject 12345-2017-SPRING-CITY'. A 'Reports' dropdown menu is open, showing a table with columns 'AVOIDING PL' and 'MY TURNITIN'. A configuration menu is open for the 'Avoiding Plagiarism quiz' tool, displaying the following details:

Name:	Avoiding Plagiarism quiz
Primary Display:	Score
Category:	
Points Possible:	10
External Grade:	No
Due Date:	None
Included in Calculations:	Yes
Column ID:	232430

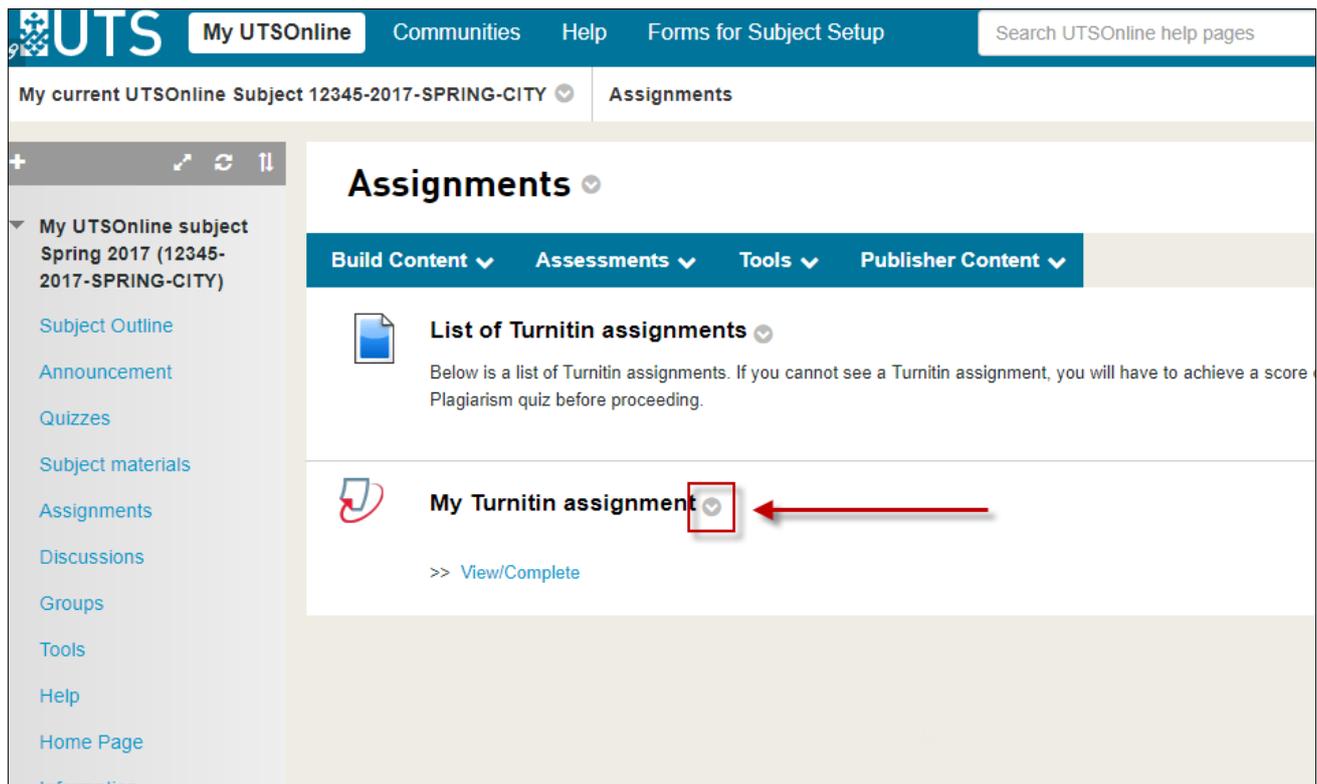

Buttons for 'Icon Legend' and 'Edit Rows Display' are visible on the right side of the interface.

Step 2 of 9: Before using the **Adaptive Release** tool, ensure that **Edit Mode** is set to **ON**.

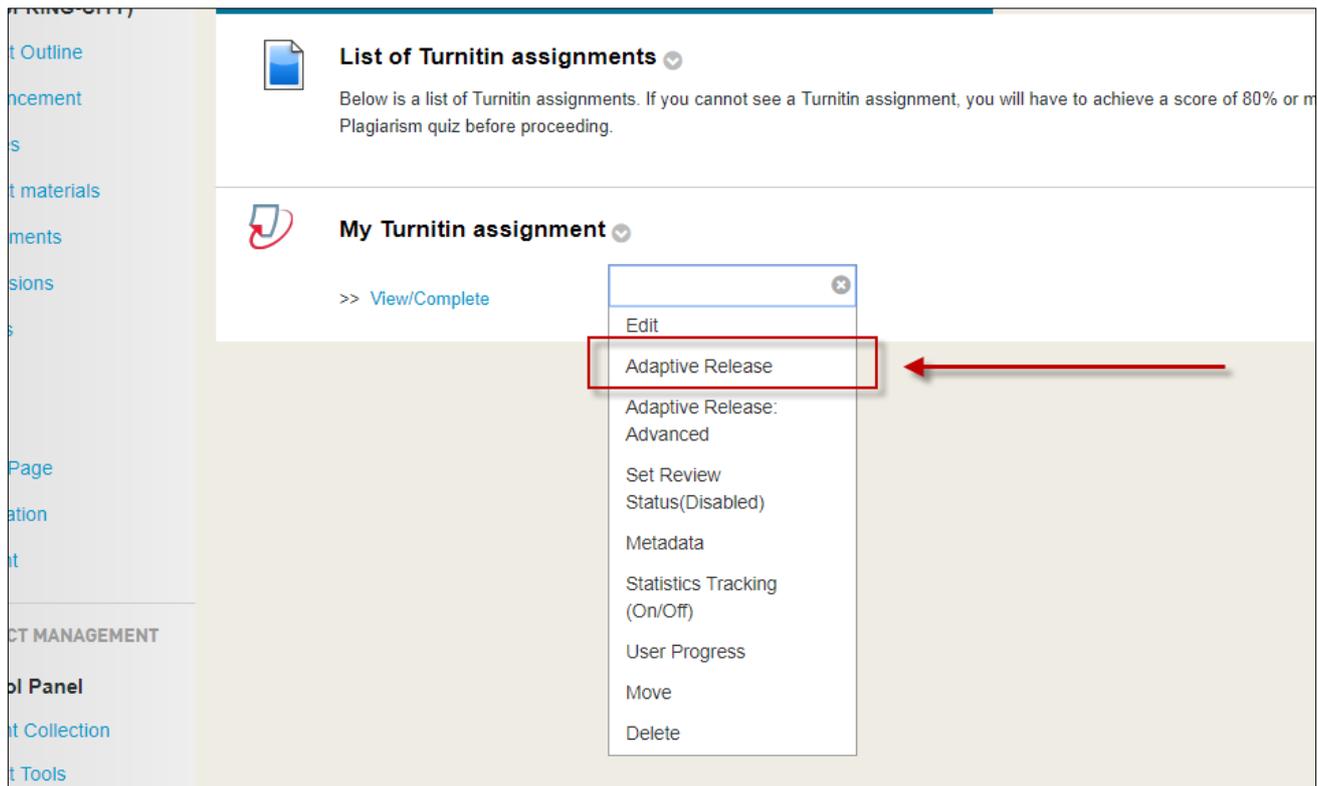

The screenshot displays the UTSonline interface for an instructor. At the top, there is a navigation bar with 'Communities', 'Help', and 'Forms for Subject Setup'. A search bar for 'UTSonline help pages' is present. The user is identified as 'Instructor 39'. Below this, the page title is '2017-SPRING-CITY' and 'Assignments'. A red box highlights the 'Edit Mode is: ON' toggle, with a red arrow pointing to it from the left. The main content area has a sub-navigation bar with 'Content', 'Assessments', 'Tools', and 'Publisher Content'. The primary section is titled 'List of Turnitin assignments' and contains the text: 'Below is a list of Turnitin assignments. If you cannot see a Turnitin assignment, you will have to achieve a score of 80% or more in the Avoiding Plagiarism quiz before proceeding.' Below this, there is a section for 'My Turnitin assignment' with a '>> View/Complete' link.

Step 3 of 9: To access the Adaptive Release tool, go to the content item in your UTSONline subject site that you would like to control access to and click on the down-arrow icon next to the item heading to open the content item's **Options menu**.

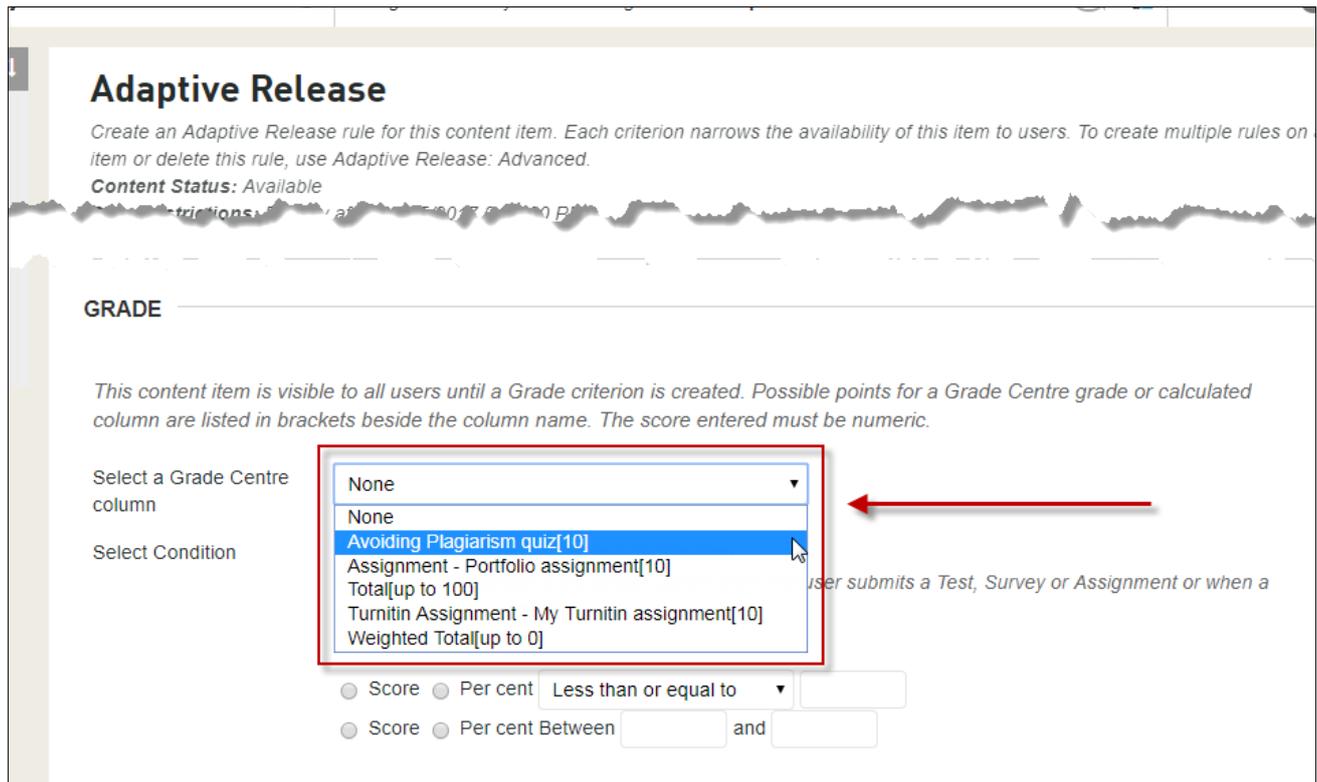

The screenshot shows the UTSONline interface. At the top, there is a navigation bar with the UTS logo, 'My UTSONline', 'Communities', 'Help', and 'Forms for Subject Setup'. A search bar is on the right. Below the navigation bar, the current subject is identified as 'My current UTSONline Subject 12345-2017-SPRING-CITY'. The main content area is titled 'Assignments' and has a sub-menu with 'Build Content', 'Assessments', 'Tools', and 'Publisher Content'. The 'Assessments' section contains two items: 'List of Turnitin assignments' and 'My Turnitin assignment'. The 'My Turnitin assignment' item has a dropdown arrow next to it, which is highlighted with a red box and a red arrow pointing to it. Below this item is a link '>> View/Complete'.

Step 4 of 9: In the Options menu, select **Adaptive Release**. This will open the Adaptive Release page for this content item.

The screenshot displays a web interface for managing Turnitin assignments. On the left is a navigation sidebar with items like 'Outline', 'Materials', and 'Tools'. The main content area is titled 'List of Turnitin assignments' and contains a section for 'My Turnitin assignment'. A dropdown menu is open for this assignment, listing options such as 'Edit', 'Adaptive Release', 'Advanced', 'Set Review Status(Disabled)', 'Metadata', 'Statistics Tracking (On/Off)', 'User Progress', 'Move', and 'Delete'. The 'Adaptive Release' option is highlighted with a red box, and a red arrow points to it from the right.

Step 5 of 9: On the Adaptive Release page, scroll down to the **Grade** section and in the **Select a Grade Centre column** dropdown list, select the grade column that was created for the Avoiding Plagiarism tool.

Adaptive Release

Create an Adaptive Release rule for this content item. Each criterion narrows the availability of this item to users. To create multiple rules on item or delete this rule, use Adaptive Release: Advanced.

Content Status: Available

GRADE

This content item is visible to all users until a Grade criterion is created. Possible points for a Grade Centre grade or calculated column are listed in brackets beside the column name. The score entered must be numeric.

Score Per cent Between and

user submits a Test, Survey or Assignment or when a

Step 6 of 9: In the **Select Condition** section, check the **Per cent** field, and change the condition value to be *Greater than or equal to 80*. Click on the **Submit** button when finished to save your changes.

GRADE

This content item is visible to all users until a Grade criterion is created. Possible points for a Grade Centre grade or calculated column are listed in brackets beside the column name. The score entered must be numeric.

Select a Grade Centre column

Select Condition

User has at least one attempt for this item
An attempt is recorded in the Grade Centre when the user submits a Test, Survey or Assignment or when a grade is entered or edited.

Score Per cent ←

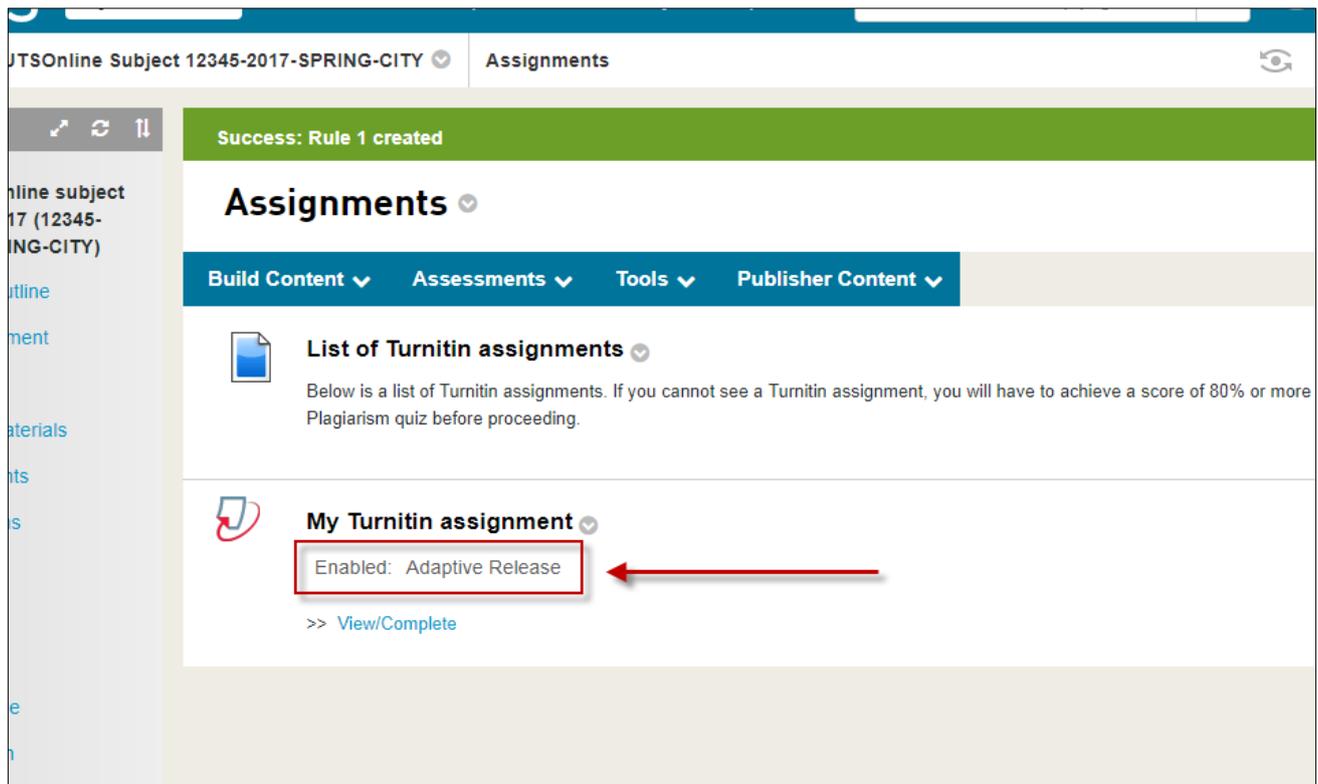

Score Per cent Between and

REVIEW STATUS

This content item is visible to all users until a Review Status criterion is created. Selecting an item will permit users to mark that item as reviewed.

Select an item

Step 7 of 9: You will now notice that the content item will have the following description: *"Enabled: Adaptive Release"* to indicate that there are now access rules applied to this item.

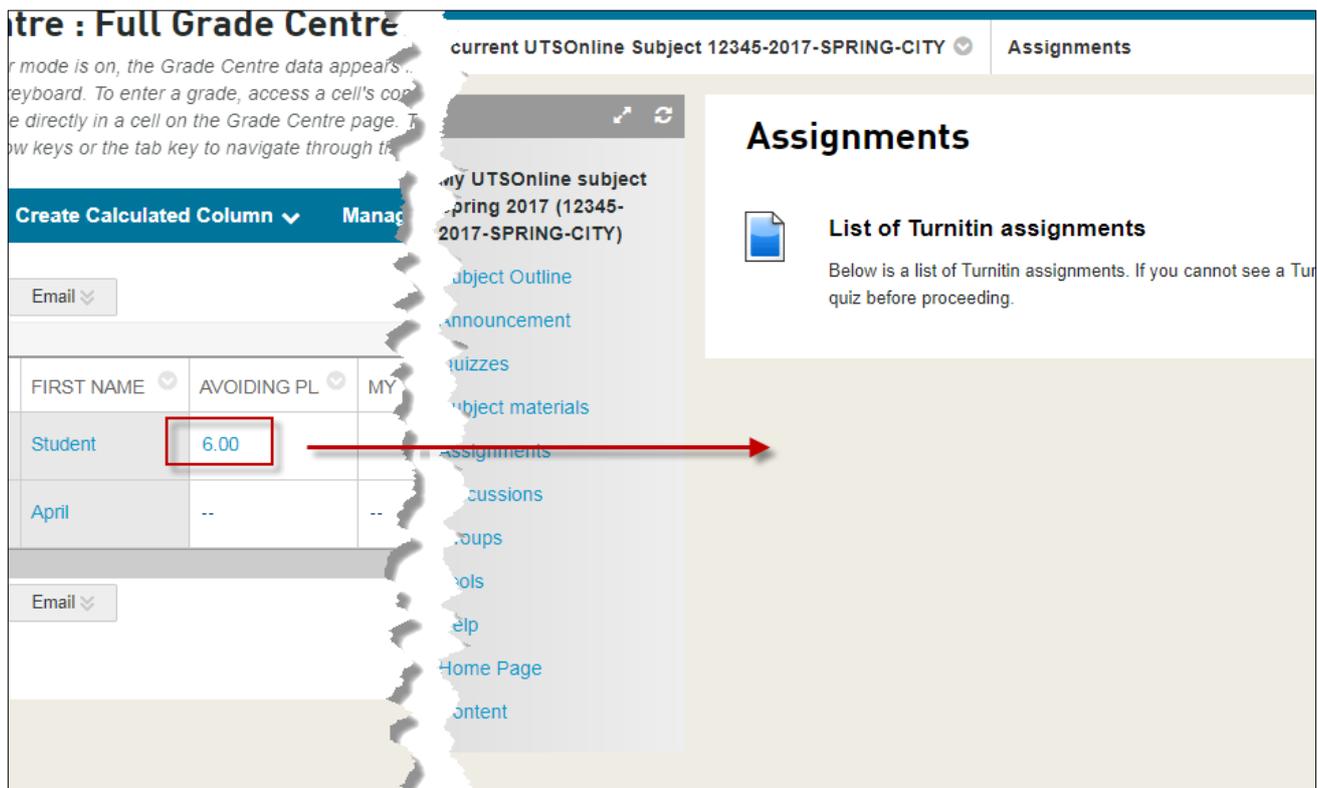

The screenshot shows the UTSOnline interface for a subject titled "12345-2017-SPRING-CITY". The page is titled "Assignments" and features a green success message: "Success: Rule 1 created". Below this, the "Assignments" section is displayed with a navigation bar containing "Build Content", "Assessments", "Tools", and "Publisher Content".

Two assignment items are listed:

- List of Turnitin assignments**: Below is a list of Turnitin assignments. If you cannot see a Turnitin assignment, you will have to achieve a score of 80% or more Plagiarism quiz before proceeding.
- My Turnitin assignment**: This item is highlighted with a red box around the text "Enabled: Adaptive Release". A red arrow points from the right towards this text. Below the text is a link: ">> View/Complete".

Step 8 of 9: In this example, a student has only received a score of *6 out of 10* for their Avoiding Plagiarism quiz attempt according to UTSONline. Because this equates to a percentage of *60%*, the student will not meet the condition specified in the Adaptive Release tool and will therefore not see the content item with Adaptive Release configured.

The screenshot shows a UTSONline interface with a 'Full Grade Centre' table and an 'Assignments' page. A red box highlights the grade '6.00' in the 'AVOIDING PL' column, with a red arrow pointing to the 'Assignments' page.

FIRST NAME	AVOIDING PL	MY
Student	6.00	
April	--	--

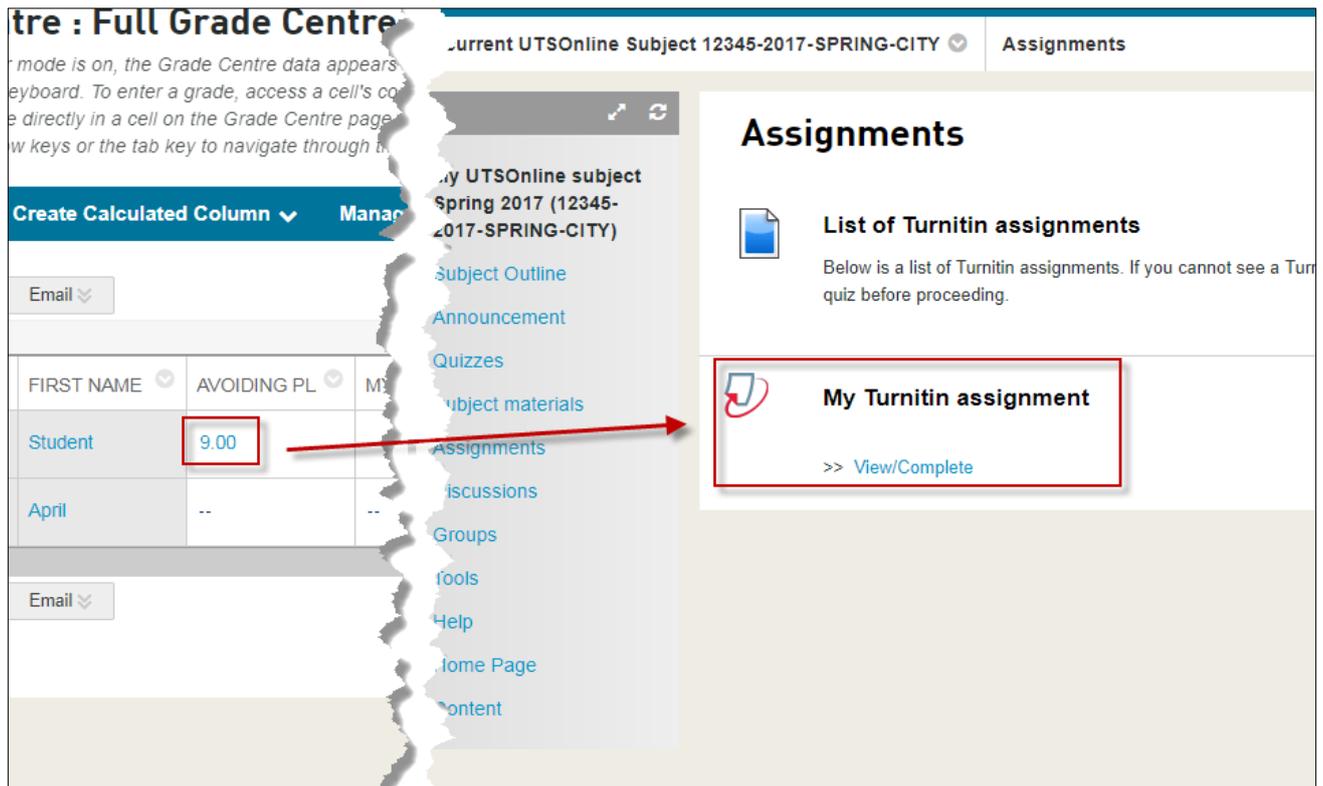

The 'Assignments' page displays the following content:

Assignments

List of Turnitin assignments

Below is a list of Turnitin assignments. If you cannot see a Turnitin assignment, you may not have completed the Turnitin quiz before proceeding.

Step 9 of 9: In this example, the student has received a score of *9 out of 10*, or *90%*. This student meets the condition specified in the Adaptive Release tool and will be able to view the content item.

The screenshot displays the 'Full Grade Centre' interface for 'Current UTOnline Subject 12345-2017-SPRING-CITY'. On the left, a table shows student grades:

FIRST NAME	AVOIDING PL	MARK
Student	9.00	
April	--	--

The grade '9.00' is highlighted with a red box. A red arrow points from this box to the 'My Turnitin assignment' card in the 'Assignments' section on the right. The 'Assignments' section includes a 'List of Turnitin assignments' and the 'My Turnitin assignment' card, which has a red box around it and a '>> View/Complete' link.
